You are the *salt of the earth*. You fought America's wars. You bought a house, raised a family and worked your job. You had hoped you would now be at ease in your retirement. Instead you are one of the many, many retired senior homeowners who experience the constant stress of financial struggle and it's not likely to get better. You are most certainly **not alone**. **Working People in the US cannot really afford to be retired, even afford to keep their house.** Many an American retiree is left with an insufficient monthly income, without a company pension or without significant cash savings. **ANYONE** Who Actually Did The Physical Work, **ANY** former blue collar worker, former construction or factory hand, former administrative worker, truck driver, or lower level white collar worker etc. cannot afford to be retired. It's that simple. For you, everyday expenses, as well as unanticipated costs such as healthcare not covered by Medicare or enjoying leisure activities, is becoming impossible to pay for. Especially for singles, minorities or women, it is so, so, common. For many seasoned citizens retirement like in the movie "**On Golden Pond**" has become the horror movie "**Skating on Thin Ice.**"

To sum it up, the HECM loan is for you!
